

# PRIMER 7 Online Workshop

in Multivariate Analysis for Ecology and other Sciences

PRESENTER: Dr Paul J. Somerfield (*Plymouth Marine Laboratory*)

DATES: 10<sup>th</sup> - 14<sup>th</sup> October 2022

TIME ZONE: 09:00 - 18:00 U.K. time (*GMT/UTC +0 hrs*)

## OVERVIEW

This **PRIMER 7 Online Workshop** will take place over 5 days (Monday – Friday, 09:00 - 18:00). The workshop is designed to give a fundamental understanding of how to analyse and gain insights from multivariate data using the software PRIMER version 7. Participants will learn through lectures, demonstrations, and practical experience with the software. The schedule will include a combination of live, online lectures and practical sessions and, throughout the workshop, there will be plenty of time for asking questions and free-flow discussions with the presenter.

For much of the final day of the workshop (Friday 14<sup>th</sup> October) participants will be allocated to one of a small number of groups. In each group participants can **analyse their own data in real time** in an open, collaborative setting with support from other participants and the presenter. During these sessions constructive questions and discussion will be encouraged from everyone. At the beginning of the workshop, we will ask participants with data that they wish to analyse to upload it to a dedicated file on Google Drive along with a description of the study and some specific research questions.

Participants are expected to use their own computer, equipped with secure and reliable internet access, a microphone, and a camera, enabling direct communication online *via* Google Meet for the duration of the workshop. All workshop materials, including recordings of online sessions, will be made available to participants for the duration of the workshop and for a period of four (4) weeks thereafter.

Software may be purchased (at a discounted price – see below) *or* a **free** fully functional (but time-limited) licence will be made available to registered participants **for trial use during the workshop**. Note that PRIMER is a Windows-only product, so Macs need to run in Windows emulation. Groups of participants (e.g., from the same lab or geographical area) may also arrange to share a space to participate in the workshop together.

**Please note:** a subsequent online PERMANOVA+ workshop will be held **31<sup>st</sup> October - 4<sup>th</sup> November 2022**, Central European Time (UTC +1 hr). Details can be found here: <https://www.primer-e.com/workshops/>

## WORKSHOP CONTENT

This workshop will provide an extensive overview of statistical methods in non-parametric analysis of multivariate data implemented in the software **PRIMER 7**. It will cater both to those who are **new to PRIMER** and to those who are “**old hands**” but have not yet had a chance to get up to speed with the latest developments in version 7.

Important new tools include: **shade plots** with flexible ordering & clustering of axes; **coherence plots** to show groups of species that display coherent response patterns among samples; agglomerative or **divisive clustering** along with **SIMPROF** tests; **metric, threshold metric, non-metric or combined MDS** in any dimensions; **bootstrap averages** to show variation among averages in metric MDS space; **2-way versions** of BEST and RELATE; **new plot types** (bar, box, means, line, histogram, scatter, surface, shade) in 2-d or 3-d; **animations** of ordinations captured to video files; multi-factor and multi-variable **segmented bubble plots** in 2-d and 3-d; **ANOSIM** extended for **ordered factors** and **3-factor** designs and much more...

In addition to novel tools in PRIMER 7, the core basic multivariate routines will also be fully discussed, e.g. pre-treatment of data; definitions of similarity; clustering; ordination by principal components (**PCA**), non-metric (and metric) multi-dimensional scaling (**MDS**); permutation tests on similarity matrices for structured (**ANOSIM, RELATE**) and unstructured (**SIMPROF**) cases; emphasis on species analyses; linking community to abiotic data (**BEST**); biodiversity indices, including **taxonomic distinctness**; and graphical tools for effective presentation of results. Non-parametric statistics and permutation tests make the methods intuitively simple to understand so **no prior background in statistics is assumed**.

## WORKSHOP FEES

To ensure that our online workshops are accessible for researchers everywhere, we are pleased to offer [Global Equitability Pricing \(GEP\)](#). Specifically, customers will receive a percentage discount off our standard US prices for workshop registration and software in direct accordance with the [Price Level Ratio published by the World Bank](#) for their country of residence. This means that the amount you pay for any of our products (workshop registration fees and/or or software products) **depends on your country of residence**.

Workshop fees **for residents of the USA** are: USD **\$880** for Professionals and USD **\$580** for full-time Students. However, **your price** may well be different. For example,

Country of Residence	GEP discount (%)	Professional Registration (\$USD)	Full-time Student Registration (\$USD)
USA	0.00%	\$ 880.00	\$ 580.00
UK	4.71 %	\$ 838.55	\$ 552.68
Italy	22.61 %	\$ 681.03	\$ 448.86
Portugal	32.40 %	\$ 594.88	\$ 392.08
South Africa	51.50 %	\$ 426.80	\$ 281.30
Mozambique	62.72 %	\$ 328.06	\$ 216.22

## DISCOUNTED SOFTWARE PRICES FOR WORKSHOP PARTICIPANTS

Workshop participants may purchase time-unlimited PRIMER software at **10% off** our standard prices. Participants who do not reside in the USA are *also* eligible for our [Global Equitability Pricing \(GEP\)](#). The workshop discount will be applied **on top of** the adjusted GEP price appropriate for each individual customer. For example, workshop-discounted prices for a **single end-user licence** of **PRIMER 7 with PERMANOVA+** across different sectors are shown below for residents of various countries:

Country of Residence	GEP discount (%)	Commercial licence (\$USD)	Public licence (\$USD)	Academic licence (\$USD)	Student licence (\$USD)
USA	0.00%	\$1,350.00	\$1,012.50	\$675.00	\$337.50
UK	4.71 %	\$1,543.70	\$1,157.77	\$771.85	\$385.92
Italy	22.61 %	\$1,253.72	\$940.29	\$626.86	\$313.43
Portugal	32.40 %	\$1,095.12	\$821.34	\$547.56	\$273.78
South Africa	51.50 %	\$785.70	\$589.28	\$392.85	\$196.43
Mozambique	62.72 %	\$603.94	\$452.95	\$301.97	\$150.98

All prices are given in US dollars. Note that **your price** may well differ from those listed above – **all** discounts for which you are eligible (including, for example, discounts for upgrades from PRIMER 6) will be applied on invoice. If you would like a quotation from us prior to registering for the workshop, please get in touch with us directly at: [primer@primer-e.co.nz](mailto:primer@primer-e.co.nz).

## REGISTRATION

To register, please fill out the registration form available on the PRIMER-e website ([www.primer-e.com/workshops](http://www.primer-e.com/workshops)) and return it directly to [primer@primer-e.co.nz](mailto:primer@primer-e.co.nz) to secure your place. The deadline for registration and payment is **2<sup>nd</sup> October 2022**. Late registrants will only be accepted if space permits.

Please get in touch with us directly on [primer@primer-e.co.nz](mailto:primer@primer-e.co.nz) if you have any questions, and especially:

1. if you would like to **obtain a quote** for your registration (with or without software), including all **discounts** for which you are eligible;
2. if you wish to register **more than one individual** from your organisation and pay on a single invoice; or
3. if you wish to purchase **more than one software licence** at discounted prices on a single invoice.

## ABOUT THE PRESENTER

**Dr Paul J. Somerfield (Plymouth Marine Laboratory)** is a highly-cited and sought-after numerical ecologist who has been instrumental in developing and using the methods in PRIMER across many fields, having led and lectured PRIMER courses across the globe for over two decades. With knowledge and broad experience in analysing multivariate datasets of all kinds, Paul has mentored and published with hundreds of scientists and professionals from a wide range of disciplines: marine, freshwater, and terrestrial ecology, oceanography, soil science, forestry, environmental science, microbial ecology, genetics, remote sensing, and modelling.

## GLOBAL EQUITABILITY PRICING (GEP)

**Table of Global Equitability Pricing (GEP)** discounts off standard (US) prices for individual countries, based on the [Price Level Ratio published by the World Bank](#). Prices shown are for professional or student registration for a single individual to attend our online workshop after applying the GEP percentage discount shown. **All prices are in US dollars (\$ USD)**. Prices do not include costs for bank fees or currency conversions. Note that the USA and all countries with a Price Level Ratio  $\geq 1.0$  relative to the USA are given a discount of 0.00%.

If your country of residence is not listed here, or if you have any other questions, please contact us directly at [primer@primer-e.co.nz](mailto:primer@primer-e.co.nz).
